IMMUNOLOGY

CONTENTS

Vol. 54 No. 1 **January 1985**

M. A. WAINBERG, B. SPIRA, M. BOUSHIRA & R. G. MARGOLESE: Inhibition by human T-lymphotropic virus (HTLV-I) of T-lymphocyte mitogenesis: failure of exogenous T-cell growth factor to restore responsiveness to lectin 1

R. B. ACRES, J. R. LAMB & M. FELDMANN: Effects of platelet-derived growth factor and epidermal growth factor on antigen-induced proliferation of human T-cell lines 9

R. MATTHEWS, A. SCOGING & A. D. M. REES: Mycobacterial antigen-specific human T-cell clones secreting macrophage activating factors 17

N. HOLLANDER & J. SHEPSHALOVICH: The functional association of Lyt antigens with lymphokine production 25

M. FREUND & E. PICK: The mechanism of action of lymphokines. VIII. Lymphokine-enhanced spontaneous hydrogen peroxide production by macrophages 35

R. J. NORTH & E. S. DYE: Ly 1^+2^- suppressor T cells down-regulate the generation of Ly 1^-2^+ effector T cells during progressive growth of the P815 mastocytoma 47

S. TAJIMA, N. NISHIMURA & K. ITO: Suppression of delayed-type hypersensitivity mediated by macrophage-like cells in mice with experimental liver injury 57

L. N. RUBEN, A. BUENAFE, S. OLIVER, A. MALLEY, K. BARR & D. LUKAS: Suppression in *Xenopus laevis*: thymus inducer, spleen effector cells 65

D. B. A. SYMONS, C. A. CLARKSON & F. J. HALL: Soluble and immobilized anti-Ig antibodies in the regulation of LPS-induced lymphoblasts 71

H. BAZIN, B. PLATTEAU, I. C. M. MACLENNAN & G. D. JOHNSON: B-cell production and differentiation in adult rats 79

S. POLLACK, Y. REISNER, B. KOZINER, R. A. GOOD & M. K. HOFFMAN: B-cell function in common immunodeficiency: suppression of *in vitro* anti-sheep erythrocytes antibody production by T cells and monocytes 89

P. HUTCHINGS, D. NAOR & A. COOKE: Effects of low doses of cyclophosphamide and low doses of irradiation on the regulation of induced erythrocyte autoantibodies in mice 97

R. M. BINNS, R. PABST & S. T. LICENCE: Lymphocyte emigration from lymph nodes by blood in the pig and efferent lymph in the sheep 105

P. WOOD & C. CHEERS: Activation of non-specific cytotoxic cells in *Listeria*-susceptible and -resistant mouse strains 113

K. VARKILA & M. HURME: Natural killer (NK) cells and graft-versus-host disease (GVHD): no correlation between the NK cell levels and GVHD in the murine $P \rightarrow F_1$ model 121

B. ROLSTAD, S. FOSSUM, H. BAZIN, I. KIMBER, J. MARSHALL, S. M. SPARSHOTT & W. L. FORD: The rapid rejection of allogeneic lymphocytes by a non-adaptive, cell-mediated mechanism (NK activity) 127

P. G. HOLT, A. DEGEBRODT, T. VENAILLE, C. O'LEARY, K. KRSKA, J. FLEXMAN, H. FARRELL, G. SHELLAM, P. YOUNG, J. PENHALE, T. ROBERTSON & J. M. PAPADIMITRIOU: Preparation

of interstitial lung cells by enzymatic digestion of tissue slices: preliminary characterization by morphology and performance in functional assays 139
R. YASUMIZU, K. ONOÉ, K. IWABUCHI, M. OGASAWARA, L. GENG & K. MORIKAWA: Analysis of contact sensitivity to 2,4-dinitrofluorobenzene (DNFB) in allogeneic bone marrow chimaera in mice 149
W. HSUEH, R. L. JORDAN & F. GONZALEZ-CRUSSI: Rabbit lymphocyte factors modulate prostaglandin biosynthesis in alveolar macrophages 155
D. W. GOLDMAN, A. L. HANNAH & E. J. GOETZL: Inhibition of human neutrophil receptor-mediated uptake of N-formyl-met-leu-phe by platelet factor 4 (59–70) 163
M. L. ESKEW, R. W. SCHOLZ, C. C. REDDY, D. A. TODHUNTER & A. ZARKOWER: Effects of vitamin E and selenium deficiencies on rat immune function 173
J.-P. BUTS & D. L. DELACROIX: Ontogenic changes in secretory component expression by villous and crypt cells of rat small intestine 181
D. WACHSMANN, J. P. KLEIN, M. SCHÖLLER & R. M. FRANK: Local and systemic immune response to orally administered liposome-associated soluble *S. mutans* cell wall antigens 189
F. FUMOUX, T. TRAORE-LEROUX, R. QUEVAL, M. PINDER & G. E. ROELANTS: High and low responsiveness of bovine lymphocytes to *Trypanosoma brucei in vitro*: lack of correlation with resistance to trypanosomiasis 195
Editorial note 205

Vol. 54 No. 2 **February 1985**

J. A. MOYNIHAN, R. J. LOONEY & G. N. ABRAHAM: The V_KIIIb light chain sub-subgroup: restricted association with mu heavy chain in normal human serum 207
A. J. HUSBAND & M. L. DUNKLEY: Lack of site of origin effects on distribution of IgA antibody-containing cells 215
S. J. GADD, M. P. BROGAN & L. K. ASHMAN: Specificity of the passive antibody-induced suppression of the humoral immune response of mice to surface antigens on human cells 223
E. M. ANDREW, N. M. MACKENZIE & R. M. E. PARKHOUSE: Functional differences associated with quantitative distribution of membrane immunoglobulin, Fc receptors and Ia on mouse B cells 233
F. TRIEBEL, J. C. GLUCKMAN, F. CHAPUIS, D. CHARRON & P. DEBRE: T-lymphocyte progenitors in man: phenotypic characterization of blood and bone marrow T-colony forming cells 241
M. JOURDAN, T. COMMES & B. KLEIN: Control of human T-colony formation by interleukin-2 249
H. MOLL, K. EICHMANN & M. M. SIMON: Immunoregulation by mouse T-cell clones. II. The same H-Y-specific T helper clone can provide help for the generation of cytotoxic lymphocytes and antibody-secreting cells 255
F. RONCHESE, D. COLLAVO, P. ZANOVELLO, V. CERUNDOLO & G. BIASI: Reversibility of lymphokine-induced NK-like activity in virus-specific cytotoxic T-lymphocyte clones 265
C. J. SANDERSON & M. STRATH: Isolation of specific antigen-reactive T-cell clones from nude (nu/nu) mice infected with *Mesocestoides corti* 275
S. TSURU, A. AISO, M. TANIGUSHI, Y. ZINNAKA & K. NOMOTO: Mechanisms of *in vivo* generation of cytotoxic activity against syngeneic tumours. I. Local differentiation of mature cytotoxic T lymphocytes in the rejection of tumours 281

P. M. COMOGLIO, M. PRAT & S. BRETTI: Enhancement of immunity against RSV-induced sarcomas by generation of hapten-reactive helper T lymphocytes 289
Y. NAKANO & K. NAKANO: Non-specific regulatory mechanism of contact sensitivity: induction of macrophage-like suppressor cells and their factors with hapten-conjugated lymphoid cells 297
Y. NAKANO & K. NAKANO: Different cellular requirements for inducing contact sensitivity and non-specific unresponsiveness with hapten-conjugated lymphoid cells 307
N. KATO, N. KIDO, M. OHTA & S. NAITO: Comparative studies on adjuvanticity of *Klebsiella* O3 lipopolysaccharide and its lipid A and polysaccharide fractions 317
T. MAINOU-FOWLER & J. H. BROCK: Effect of iron deficiency on the response of mouse lymphocytes to concanavalin A: the importance of transferrin-bound iron 325
W. A. JEFFERIES, M. R. BRANDON, A. F. WILLIAMS & S. V. HUNT: Analysis of lymphopoietic stem cells with a monoclonal antibody to the rat transferrin receptor 333
S. E. ULLRICH: Suppression of lymphoproliferation by hapten-specific suppressor T lymphocytes from mice exposed to ultraviolet radiation 343
J. A. ELLIS & J. C. DEMARTINI: Ovine concanavalin A-induced suppressor cells: generation, assay, age-related effects and re-evaluation of mechanism of suppression 353
G. CHAOUAT, M. LIACOPOULOS-BRIOT, J. COUDERC, J. PARLEBAS, Y. PERRODON, O. BRIFFAUT & P. LIACOPOULOS: Selection of BW 5147 subclones devoid of non-specific suppressive activity for use in cell hybridization 363
G. BERTON, M. CASSATELLA, G. CABRINI & F. ROSSI: Activation of mouse macrophages causes no change in expression and function of phorbol diesters' receptors, but is accompanied by alterations in the activity and kinetic parameters of NADPH oxidase 371
L. A. MERTIN, V. SLJIVIC & V. M. RUMJANEK: The effect of sensitization of pregnant Lewis rats with encephalitogen on the subsequent suceptibility of their offspring to allergic encephalomyelitis 381
R. A. LAKE, A. MORGAN, B. HENDERSON & N. A. STAINES: A key role for fibronectin in the sequential binding of native dsDNA and monoclonal anti-DNA antibodies to components of the extracellular matrix: its possible significance in glomerulonephritis 389

Brief communications

W. DERESKI & H. R. PETTY: Role of macrophage cell surface sulphydryl groups in endocytosis, but not recognition of immune complexes 397
J. P. COUTELIER & J. VAN SNICK: Binding of *in vivo* formed immune complexes by monoclonal mouse rheumatoid factors 401
Erratum 405

Vol. 54 No. 3 **March 1985**

J. K. CZOP, J. L. KADISH, D. M. ZEPF & K. F. AUSTEN: Identification with monoclonal antibodies of different regions of human plasma fibronectin, including that which interacts with human monocyte fibronectin receptors 407
D. K. MALE, B. R. CHAMPION, G. PRYCE, H. MATTHEWS & P. SHEPHERD: Antigenic determinants of human thyroglobulin differentiated using antigen fragments 419
P. APPLEBY & D. CATTY: Quantitative and spectrotypic analysis of paternal IgG2a expression in normal and allotype-suppressed mice 429

D. W. KNUTSON, D. CHIA, E. V. BARNETT & L. LEVY: Blood clearance and tissue localization of soluble aggregates of IgG in NZB/W and NZB mice 439
F. KIEVITS & A. KIJLSTRA: Inhibition of C3 deposition on solid-phase bound immune complexes by lactoferrin 449
D. LAPPIN & K. WHALEY: Requirement for cations in the stimulation of C2 synthesis by human monocytes 457
C. KAI, Y. YOSHIKAWA, K. YAMANOUCHI, H. OKADA & S. MORIKAWA: Ontogeny of the third component of complement of Japanese quails 463
R. F. SHELDRAKE, R. SCICCHITANO & A. J. HUSBAND: The effect of lactation on the transport of serum-derived IgA into bile of sheep 471
K. J. BEH: The antibody-containing cell response of the lamina propria of the sheep and the uptake of soluble antigen into afferent ileal lymph following intra-intestinal infusion of soluble or particulate antigen 479
K. J. BEH & A. K. LASCELLES: The effect of adjuvants and prior immunization on the rate and mode of uptake of antigen into afferent popliteal lymph from sheep 487
N. RESTUM-MIGUEL & A. PROUVOST-DANON: Effects of multiple oral dosing on IgE synthesis in mice: oral sensitization by albumin extracts from seeds of Jack fruit (*Artocarpus integrifolia*) containing lectins 497
J. C. JACKSON, R. J. CROSS, R. F. WALKER, W. R. MARKESBERY, W. H. BROOKS & T. L. ROSZMAN: Influence of serotonin on the immune response 505
B. R. CHAMPION, A. M. VAREY, D. KATZ, A. COOKE & I. M. ROITT: Autoreactive T-cell lines specific for mouse thyroglobulin 513
G. L. ASHERSON, V. COLIZZI & B. M. JAMES: The control of the contact sensitivity skin reaction: T-suppressor afferent cell blocks the production of antigen-specific T-helper factor 521
M. SPITZ, A. GEARING, M. CALLUS, L. SPITZ & R. THORPE: Interleukin-2 *in vivo*: production of and response to interleukin-2 in lymphoid organs undergoing a primary immune response to heterologous erythrocytes 527
M. HIRASHIMA, K. SAKATA, K. TASHIRO, T. YOSHIMURA & H. HAYASHI: Dexamethasone suppresses concanavalin A-induced production of chemotactic lymphokines by releasing a soluble factor from splenic T lymphocytes 533
M. P. BRITTLE, M. C. JACOB, K. GOMER & D. ROBERTSON: Induced type-B reticulum cell neoplasia of CBA mice. I. Phenotypic similarities between tumorigenic reticulum cells and normal accessory cells 541
R. ASPINALL & P. L. STERN: Analysis of the xenogeneic T-cell response to murine H-2 negative embryonal carcinoma cells 549
M. SALMON, P. A. BACON, D. P. M. SYMMONS & K. W. WALTON: Transferrin receptor expression by stimulated cells in mixed lymphocyte culture 559
D. WIGER & T. E. MICHAELSEN: Binding site and subclass specificity of the herpes simplex virus type 1-induced Fc receptor 565
D. A. RUSSELL & G. A. CASTRO: Anaphylactic-like reaction of small intestinal epithelium in parasitized guinea-pigs 573
T. G. EGWANG, A. D. BEFUS & J. GAULDIE: Activation of alveolar macrophages following infection with the parasitic nematole *Nippostrongylus brasiliensis* 581
C. D. DIJKSTRA, E. A. DÖPP, P. JOLING & G. KRAAL: The heterogeneity of mononuclear phagocytes in lymphoid organs: distinct macrophage subpopulations in the rat recognized by monoclonal antibodies ED1, ED2 and ED3 589

Brief communication

J.-P. VAERMAN, A. DE RIJCK-LANGENDRIES, M. RITS & D. DELACROIX: Neutralization of cholera toxin by rat bile secretory IgA antibodies 601

Book reviews 605

Vol. 54 No. 4 **April 1985**

P. M. TAYLOR, D. C. WRAITH & B. A. ASKONAS: Control of immune interferon release by cytotoxic T-cell clones specific for influenza 607

D. J. WARREN & C. J. SANDERSON: Production of a T-cell hybrid producing a lymphokine stimulating eosinophil differentiation 615

N. K. MAK & C. J. SANDERSON: The T-cell mediated immune response to *Schistosoma mansoni*. I. Generation of stage-specific, MHC-restricted proliferative T-cell clones to soluble egg antigens 625

C. W. PENN, M. J. BAILEY & A. COCKAYNE: The axial filament antigen of *Treponema pallidum* 635

H. A. VERBRUGH, D. A. LEE, G. R. ELLIOTT, W. F. KEANE, J. R. HOIDAL & P. K. PETERSON: Opsonization of *Legionella pneumophila* in human serum: key roles for specific antibodies and the classical complement pathway 643

A. AGGARWAL, W. CUNA, A. HAQUE, C. DISSOUS & A. CAPRON: Resistance against *Brugia malayi* microfilariae induced by a monoclonal antibody which promotes killing by macrophages and recognizes surface antigen(s) 655

M. OGASAWARA, S. KOBAYASHI, J. L. HILL, D. H. KONO & D. T. Y. YU: Rabbit antisera against three different bacteria which can induced reactive arthritis: analysis by ELISA, immunoprecipitation and Western Blot 665

G. G. B. KLAUS, M. K. BIJSTERBOSCH & R. M. E. PARKHOUSE: Activation and proliferation signals in mouse B cells. V. A comparison of the effects of intact (IgG) and $F(ab')_2$ anti-μ or anti-δ antibodies 677

F. FALCIONI, G. PAWELEC, N. BRATTIG, E. M. SCHNEIDER, P. BERG & P. WERNET: Functionally distinct human T-lymphocyte clones sharing potent suppressive activity on immunoglobulin secretion 685

R. F. L. JAMES, G. H. SUNSHINE, S. EDWARDS, D. J. MAUDSLEY & M. FELDMANN: Augmentation of cell-mediated responses *in vitro* by a monoclonal anti-helper factor antibody 693

T. LEHNER, J. AVERY & R. SMITH: Helper and suppressor functions of human mononuclear cells depleted of antigen-binding $T8^+$ cells 701

T. LEHNER, J. AVERY & T. JONES: Separation and characterization of a subset of human $T8^+$ cells which function as antigen-presenting and contrasuppressor cells 713

C. N. BAXEVANIS, S. PEREZ, D. KOKKINOPOULOS & M. PAPAMICHAIL: The biological effect of three thymosin fraction 5 polypeptides in the murine mixed lymphocyte reaction 723

S. M. SPARSHOTT, J. A. FORRESTER, D. P. MCINTOSH, C. WODD, A. J. S. DAVIES & W. L. FORD: The carriage and delivery of substances to lymphatic tissues by recirculating lymphocytes. I. The concentration of ricin in lymphocyte traffic areas 731

R. A. DE MAAGD, W. A. MACKENZIE, H.-J. SCHUURMAN, M. A. RITTER, K. M. PRICE, R. BROEKHUIZEN & L. KATER: The human thymus microenvironment: heterogeneity detected by monoclonal anti-epithelial cell antibodies 745

K. KOWALCZYK, J. DAISS, J. HALPERN & T. F. ROTH: Quantitation of maternal-fetal IgG transport in the chicken 755
P. R. WIDDERS, C. R. STOKES, J. S. E. DAVID & F. J. BOURNE: Specific antibody in the equine genital tract following systemic and local immunization 763
J. G. SHIELDS & D. M. V. PARROTT: Appearance of delayed-type hypersensitivity effector cells in murine gut mucosa 771
E. HEINEN, D. RADOUX, C. KINET-DENOEL, M. MOEREMANS, J. DE MEY & L. J. SIMAR: Isolation of follicular dendritic cells from human tonsils and adenoids. III. Analysis of their Fc receptors 777
A. FERRANTE: Inhibition of human neutrophil locomotion by the polyamine oxidase-polyamine system 785
T. F. SCHULZ, H. SCHARFENBERGER, J. D. LAMBRIS, P. RIEBER, G. REITHMÜLLER & M. P. DIERICH: Antigenic relationship between the alpha-chain of C3, a leucocyte-surface antigen involved in the activation of phagocytic cells, and a 50,000 MW B-cell antigen 791
R. VEERHUIS, L. A. VAN ES & M. R. DAHA: *In vivo* degradation of rat C1q induced by intravenous injection of soluble IgG aggregates 801
R. G. Q. LESLIE & K. COUPLAND: The ingestion and degradation of soluble immune complexes by guinea-pig macrophages and neutrophils 811
L. HAMMARSTRÖM, M. A. A. PERSSON & C. I. E. SMITH: Immunoglobulin subclass distribution of human anti-carbohydrate antibodies: aberrant pattern in IgA-deficient donors 821
